

# PCI DSS Compliance Program

Simplify compliance, enhance security, and gain peace of mind with SecurityMetrics' PCI compliance program.

## Streamlined Dashboard

Simplify compliance tasks, access certificates, and get support easily, reducing stress and allowing you to focus on your business.

## Guided Self-Assessment Questionnaire

Save time and ensure accurate completion with Fastpass, which selects the appropriate SAQ and provides step-by-step guidance.

## Breach Protection

Gain peace of mind with up to \$100,000 in data breach coverage worldwide, ensuring financial protection for compliant merchants.

## Quarterly Vulnerability Scans

Easily set up and view detailed scans, ensuring continuous security monitoring and compliance for online credit card processing.

## Online Security Awareness Tools

Stay informed and prepared with access to training materials, enhancing understanding and promoting proactive security measures.

## How it Works

- 1 Prior to enrollment, you will receive a notice for the SecurityMetrics PCI Compliance Program.
  - 2 Upon enrollment, SecurityMetrics initiates onboarding.
  - 3 Look for a welcome email from SecurityMetrics containing login credentials to access your portal and dashboard.
  - 4 Gather the following information for PCI compliance requirements:
    - Merchant ID (MID)
    - IP address
    - Third-Party Integrations
    - Point of Sale (POS) Device details: Vendor, Brand, Model Number
  - 5 Log in to the portal and proceed with the following :
    - Complete the Self-Assessment Questionnaire (SAQ).
    - Set up quarterly network scans.
    - To determine the appropriate SAQ, click on the "Get Started With PCI 3.2.1" link under your To-Dos. You will be redirected to the SecurityMetrics FastPass scoping tool.
  - 6 Upon fulfilling the requirements, gain coverage of \$100,000 through our insurance partner in the event of a breach. Access your compliance certificate and updates in your portal.
-  Renew SAQ yearly and network scans quarterly.
